RE: Proposed 45.7% rate increase on 2,569 policyholders of forms P1-21295-A37/-A87, P1-21300-A37/-A87, P1-21305-A37/-A87, P1-N0022-A37/-A87/-B37/-B87, P1-N0023-A37/-A87/-B37, P1-N0026-A37/-A87/-B37/-B87, P1-N0027-A37/-A87, P1-N0031-A37/-A87, & P1-N0034-A37/-A87.

Pennsylvania Insurance Department ID #: CNAB-133114869

### Dear Louis Scarim:

The captioned filing has been reviewed by the Pennsylvania Insurance Department. It has been determined that the filing fails to meet the requirements of our Insurance Company Laws or regulations and is therefore disapproved pursuant to the authority granted under Section 304(a) of Act 134, the Accident and Health Filing Reform Act. In the event you have any questions regarding the stated concerns, please feel free to contact the Department for further clarification.

The disapproved filing may be resubmitted within 120 days of the date of disapproval. If the Department does not hear from you within 120 days, the subject filing will be permanently closed. Such filings resubmitted after 120 days must be submitted as a new filing, inclusive of appropriate filing fees and disclosure of the closed filing SERFF tracking number.

The Department cannot approve your requested increase because our current guidelines do not allow us to approve increases of greater than 30% in any calendar year. Please propose an increase staged over two years such that the cumulative value of the two increases is equal to the original requested increases for each policy and no increase in either year is greater than 30%.

Lastly, please provide a seriatim listing of the 2,569 Continental Casualty policies in this block in Excel. Each row within the worksheet must contain the policy's unique identification number, form number, series (i.e. TQ or Preferred Advantage), issue age, issue date, inflation status indicator, benefit period, and Continental Casualty's suggested premium increase in each year of the proposed implementation period.

If Continental Casualty would like to accept our offer, then please respond with an acceptance letter and the seriatim listing.

Sincerely,

Michael Hibbert
Actuarial Associate
Bureau of Accident & Health Insurance

Please furnish the following information to the Department.

- 1. Please provide a table in an Excel spreadsheet (perhaps similar to Exhibit 3a Lifetime Benefits & Standard Inflation) for this nationwide block of Preferred Advantage policies which shows the historical and projected nationwide earned premium and incurred claims on a calendar year basis assuming no rate increase is granted. Please restate the nationwide historical and projected earned premium so that the business from inception appears to have all been earned at the original rate level. The original rate level is the rate level that would have existed if no increase was ever granted on any policy nationwide. Answer this question considering only the policies represented in Exhibit 3a (i.e. Preferred Advantage Lifetime Benefits & Standard Inflation).
- 2. Please provide the percent of active Preferred Advantage policyholders remaining on a nationwide basis. How many Preferred Advantage policies were issued nationwide? How many policies remain in force nationwide? Answer this question considering only the policies represented in Exhibit 3a (i.e. Preferred Advantage Lifetime Benefits & Standard Inflation).
- 3. Please provide the cumulative weighted average increase granted on policies in force on this block in PA. Answer this question considering only the policies represented in Exhibit 3a (i.e. Preferred Advantage Lifetime Benefits & Standard Inflation).
- 4. Please provide a table in an Excel spreadsheet (perhaps similar to Exhibit 3b without Lifetime Benefits & with Standard Inflation) for this nationwide block of Preferred Advantage policies which shows the historical and projected nationwide earned premium and

30. Please define what "standard inflation means". Were any policies issued with non-standard inflation options in this block?

31. Continental Casualty has offered the surrender option in the past. The company also offered a conversion option that provided a paid-up benefit of 100% of premium paid plus a cash payment. What is the approximate percent of policyholders that, when offered a cash surrender option, actually choose to exercise it?

Sincerely,

Michael Hibbert Actuarial Associate Bureau of Accident & Health Insurance

		P1-N0031-A37/-A87
		P1-N0034-A37/-A87

### Dear Commissioner Altman:

Enclosed is a request for a pre-rate stability premium rate increase that applies to Pennsylvania policies issued before 9/16/2002 for the above captioned long term care policy forms, including all associated riders, issued prior to your state's implementation of rate stability requirements. This increase is requested in order to establish premium rates that are reasonable in relation to benefits based on actual historical experience and best-estimate projections for these forms. The method that we used to determine the requested premium rate increase is outlined in the enclosed actuarial memorandum and supporting exhibits.

The rate increase indication varies by product portfolio, benefit period, and automatic increase benefit (AIB) rider, with rate increases as follows:

Preferred Advantage	Policies with AIB Rider	Policies without AIB Rider
Unlimited Lifetime Max Benefits	60.0%	35.0%
Non-Lifetime Max Benefits	35.0%	0.0%

TQ	Policies with AIB Rider	Policies without AIB Rider
Unlimited Lifetime Max Benefits	60.0%	35.0%
Non-Lifetime Max Benefits	35.0%	0.0%

Please see the Supplement to Rate Sheet for details on the implementation schedule.

Although a greater increase can be justified, the Company is limiting the rate request at this time. The rate increase request varies by product in order to be sensitive to the age distribution of the policies within each product portfolio.

The proposed premium rates will be effective on the insured's next policy anniversary date following a notification period at least as long as required by your state following approval. No insured will receive more than one rate increase in a 12-month period.

Upon approval of this rate revision, CCC will communicate to insureds their options to reduce the impact of the rate increase. These options may include increasing the elimination period, reducing the lifetime maximum, reducing the daily benefit or eliminating optional riders, such as automatic increase riders. Available options will depend upon the insured's current coverage levels, benefit options available under their specific policy form, and any statutory minimum benefit levels in your state.

In addition, the Company is making a number of alternative options available for all insureds in conjunction with this rate increase. The first option provides an Increased Contingent Non-Forfeiture ("ICNF") benefit upon lapse to all insureds regardless of their original issue date, rate increase amount or issue age of the insured. If this benefit is elected by the insured, the insured will not have to pay prospective premium, and their remaining benefit pool amount will equate to 150% of lifetime premiums paid. If a policy lapses due to non-payment of premiums without notifying the Company of their intention to elect the ICNF option, the insured's coverage will default to a standard 100% of lifetime premiums paid contingent non-forfeiture benefit.

The second option that is being offered to insureds is the "Surrender Option". If this option is elected by the insured, the insured will surrender their policy in return for a one-time cash payment from the Company. The amount of the one-time cash surrender payment is equal to the unisex-adjusted statutory active life reserve held for the specific insured.

Both of the above alternative options will be offered to all insureds in your state, regardless of whether or not they receive a rate increase, in order to ensure fairness within these product portfolios. If a policy lapses due to non-

payment of premiums without notifying the Company of the insured's intention to elect any of the above options, the insured's coverage will default to a standard 100% CNF benefit.

For states that do not approve the full requested increase, the Company anticipates that additional rate increase filings will be necessary in the near future. The exact timing of when an additional filing will be made and the amount that will be requested will be determined by the attributes of these policy forms, the Company's experience, and applicable laws and regulations.

Included with this request are the following items:

- this cover letter;
- an actuarial memorandum including supporting exhibits;
- a rate supplement page reflecting the rate increase request; and
- a surrender option endorsement.

We respectfully request your favorable consideration and approval of this filing.

Louis Scarim, ASA, MAAA

Actuarial Consulting Director, LTC Inforce Management

# Continental Casualty Company ("CCC") Actuarial Memorandum In Support of a Premium Rate Increase Request Pennsylvania

The following individual long term care policy forms subject to this rate increase request were originally issued nationwide from 1994 to 2004:

Product Portfolio	Issue Date Range	Policy Form	
		P1-21295-A37/-A87	
Preferred Advantage	1994 to 2004	P1-21300-A37/-A87	
		P1-21305-A37/-A87	
	1997 to 2003	P1-N0022-A37/-A87/-B37/-B87	
		P1-N0023-A37/-A87/-B37	
		P1-N0026-A37/-A87/-B37/-B87	
TQ		P1-N0027-A37/-A87/-B37	
			P1-N0030-A37/-A87
		P1-N0031-A37/-A87	
		P1-N0034-A37/-A87	

### 1. Purpose and Justification of Filing

The purpose of this memorandum is to provide actuarial information supporting CCC's request for a rate increase for the above-listed policy forms. The rate increase request varies by benefit period and automatic increase benefit (AIB) rider as follows:

Preferred Advantage	Policies with AIB Rider	Policies without AIB Rider
Unlimited Lifetime Max Benefits	60.0%	35.0%
Non-Lifetime Max Benefits	35.0%	0.0%

TQ	Policies with AIB Rider	Policies without AIB Rider
Unlimited Lifetime Max Benefits	60.0%	35.0%
Non-Lifetime Max Benefits	35.0%	0.0%

Please see the Supplement to Rate Sheet for details on the implementation schedule.

This rate increase is requested in order to establish premium rates that are reasonable in relation to benefits based on actual historical experience and best-estimate projections for these forms. This rate filing is not intended to be used for other purposes.

Upon approval of this rate revision, CCC will communicate to insureds their options to reduce the impact of the rate increase. These options may include increasing the elimination period, reducing the lifetime maximum, reducing the daily benefit or eliminating optional riders.

Because the requested rate increase applies to policies with an AIB rider, insureds with an AIB rider who choose to drop it (i.e. Freeze and Drop) will:

- Not be subject to the AIB rate increase;
- · Retain their inflated benefits as of the effective date of the coverage change; and
- Be charged an original issue age premium based on the original non-inflated benefits.

Available options will depend upon the insured's current coverage levels, benefit options available under their specific policy form, and any statutory minimum benefit levels in your state.

In addition, the Company is making a number of alternative options available for all insureds in conjunction with this rate increase. The first option provides an Increased Contingent Non-Forfeiture ("ICNF") benefit upon lapse. If this benefit is elected by the insured, the insured will not have to pay prospective premium, and their remaining benefit pool amount will equate to 150% of lifetime premiums paid, capped at current remaining lifetime benefits.

The second option that is being offered to insureds is the "Surrender Option". If this option is elected by the insured, the insured will surrender their policy in return for a one-time cash payment from the Company. The amount of the one-time cash surrender payment is equal to the unisex-adjusted statutory active life reserve held for the specific insured.

Both of the above alternative options will be offered to all insureds in your state (those with and without AIB riders), regardless of whether or not they receive a rate increase, in order to ensure fairness within the product portfolio. If a policy lapses due to non-payment of premiums without notifying the Company of the insured's intention to elect any of the above options, the insured's coverage will default to a standard 100% CNF benefit.

### Please note:

- The requested rate increase amount is less than the amount CCC can justify; and
- CCC will continue to monitor the experience of this block and will react accordingly to experience development.

### 2. Description of Benefits

All of the forms are guaranteed renewable individual long term care policies sold through non-captive agents. Additional details for each product portfolio are shown below:

## Preferred Advantage (P1-21295-Series, P1-21300-Series, P1-21305-Series, P1-21925-Series, P1-22436-Series)

- P1-21295-Series provides for long term care and home health care benefits. Benefits are limited to the policy's lifetime maximum which is equal to the following multipliers times the daily benefit amount: 730x, 1,095x, 1,460x, 1,825x, or unlimited. Benefit eligibility requires either medical necessity or due to the inability to perform two or more activities of daily living or due to cognitive impairment.
- Long term Care Benefits: For each day of stay in a facility, this policy pays the expenses incurred by the facility up to the maximum daily facility benefit (as shown on insured's schedule) limited to the lifetime maximum. The policy includes a bed reservation benefit limited to 21 days per calendar year. The lifetime maximum is equal to either unlimited or the following multipliers times the daily benefit amount: 730x, 1,095x, 1,460x, and 1,825x.
  - Home Health Care Benefits: This policy pays 100% of the expenses incurred each day for therapist or nurse, 80% of the expenses incurred for home health aide, medical social worker or homemaker and 80% of expenses incurred each day of care for adult day care. The total benefits payable each day for home health care benefits is limited to the daily home and community based care benefit amount shown on the insured's schedule (either 100% or 50% of the long term care daily benefit amount, selected at issue).
- This policy also provides for a waiver of premium benefit, caregiver training benefit, medical help benefit, alternate care facility benefit and respite care benefit.
- Optional benefits: Automatic increase riders.
- Policy P1-22435-Series is identical to P1-21295 except that it provides a non-forfeiture benefit.
- P1-21300-Series is similar to P1-21295-Series except that it pays 100% of expenses incurred each day for home health aide, medical social worker or homemaker or adult day care. P1-22436-Series is identical to P1-21300 except that it provides a non-forfeiture benefit.
- P1-21305-Series is similar to the above policies except that it provides facility only coverage.
   Policy P1-21925-Series is identical to P1-21305 except that it provides a non-forfeiture benefit.

TQ (P1-N0022-Series, P1-N0023-Series, P1-N0026-Series, P1-N0027-Series, P1-N0030-Series, P1-N0031-Series, P1-N0034-Series, P1-N0035-Series, P1-N0066-Series, P1-N0070-Series)

- The forms in the "TQ" policy portfolio are intended to meet the requirements of the federal tax code for favorable income tax treatment of long term care insurance.

- Long term Care Benefits: For all forms, for each day of stay in a facility, this policy pays the expenses incurred by the facility up to the maximum daily facility benefit (as shown on insured's schedule) limited to the lifetime maximum. The policy includes a bed reservation benefit limited to 21 days per calendar year. The lifetime maximum is equal to either unlimited or the following multipliers times the daily benefit amount: 730x, 1,095x, 1,460x, and 1,825x.
- Home Health Care Benefits: Form P1-N0022-Series pays 100% of the expenses incurred each day for therapist or nurse, 80% of the expenses incurred for home health aide, medical social worker or homemaker and 80% of expenses incurred each day of care for adult day care. The total benefits payable each day for home health care benefits is limited to the daily home and community based care benefit amount shown on the insured's schedule (either 100% or 50% of the long term care daily benefit amount, selected at issue).
- This policy also provides for a waiver of premium benefit, caregiver training benefit, medical help benefit, alternate care facility benefit and respite care benefit.
- Optional benefits: Automatic increase riders.
- Policy P1-N0023-Series is identical to P1-N0022 except that it provides a non-forfeiture benefit.
- P1-N0026-Series is similar to P1-N0022-Series except that it pays 100% of expenses incurred each day for home health aide, medical social worker or homemaker or adult day care.
- P1-N0027-Series is identical to P1-N0026 except that it provides a non-forfeiture benefit.
- P1-N0030-Series is similar to the above policies except that it is for nursing home only benefits and does not include any home health care benefits. Policy P1-N0031-Series is identical to P1-N0030 except that it provides a non-forfeiture benefit.
- P1-N0034-Series and P1-N0035-Series are tax qualified versions of forms P1-18876-Series and P1-18878-Series.
- P1-N0066-Series is comparable to P1-N0022-Series. P1-N0070-Series is comparable to P1-N0030.

### 3. Renewability

These forms provide the insured guaranteed renewable individual long term care coverage.

### 4. Applicability of Rate Increase

This filing applies to in-force insureds only, as these forms are no longer being marketed. This filing is a request for a pre-rate stability premium rate increase that applies to Pennsylvania policies issued before 9/16/2002, and will apply to the base forms and all riders associated with the base forms for policies.

### 5. Experience Study and Actuarial Assumptions

This section provides a summary of the results of the annual experience study, along with the resulting assumptions utilized in the projection model. The liability assumptions below are consistent with the assumptions being used in the Company's reserve adequacy and asset adequacy testing. It is noted that some actual to expected ("A/E") analysis tables in this section have A/E ratios other than 100%. In order to reduce year over year volatility, if A/E results from the experience study are within an internal target range, the assumption will not be revised from the prior year's assumption.

### **Morbidity Overview**

CNA has a sizeable block of LTC policies with a robust and credible amount of claims experience. As such, the 2020 morbidity study used experience from 2009 to 2019 to develop frequency and severity (claim utilization, disabled life mortality, and claim recovery) assumptions. CNA assesses morbidity experience separately for the Individual Long-Term Care (ILTC), State Farm (SF), and Group Long-Term Care (GLTC) blocks of business. Furthermore, any variation in assumption by different policyholder characteristics (i.e. gender) is based on company experience where meaningful variation has existed and is expected to continue in the future.

Assumptions are set at a granular level to provide the best possible fit to experience. A dynamic validation is then performed to ensure that assumptions provide a reasonable fit in the aggregate. The dynamic validation was performed by modeling best-estimate assumptions with inforce liability data as of December 31, 2018 to see how well the assumptions would replicate actual historical experience.

For policyholders aged 85 and older, CNA has approximately over 350K exposure years and over 35K claims. For older attained ages with less credible data, CNA has set incidence, claim recovery and utilization assumptions using age bands where assumptions do not vary beyond a certain age threshold. Disabled life mortality varies by attained age and is based on a 2012 IAM mortality table for attained ages 0 to 100 and based on the maximum of 2000 Annuity and 2012 IAM for attained ages 100 and older. Impairment factors by attained age are applied to this table to account for the higher mortality rates associated with disabled lives compared to healthy lives.

Morbidity experience can vary from carrier to carrier based on policy language, claim adjudication practices and rate increase programs undertaken. None of these differences are captured in industry studies. Given the fact that CNA has credible and robust claims experience, assumptions were set entirely based on company experience and were not directly compared to industry data.

The ILTC block is past its peak number of claims so the number of new incurred claims has been slowing. GLTC is a younger block and the number of new incurred claims is expected to continue to increase over the next twenty to thirty years. Also, within the study period mentioned above, CNA has implemented ILTC and GLTC rate increases on both ILTC and GLTC, which has temporarily increased incidence due to anti-selection.

The amount of new incurred claim dollars has increased over the recent past due to increases in the cost of care. Incurred claim dollars are expected to continue to increase for both ILTC and GLTC over the near to mid-term.

CNA has granular assumptions which allows for variation in lapse rates. One variation that is worth noting is the assumption that lapse rates are expected to be lower for policies with richer benefits (i.e. policies with longer benefit periods and with contractual inflation). Therefore, as the block ages, there is an expectation that the policies that persist will naturally have longer lengths of stay with higher severity as the mix shift changes over time. Also assumed in the claim utilization assumption is an expectation of rising cost of care inflation which will also lead to higher severity of claims over time.

### **Claim Incidence**

The frequency of claim is the probability that a healthy insured will go into disabled status, also known as 'claim incidence'. The final incidence rate that gets modeled is comprised of a base incidence table, adjustment factors based on policy features and demographics, and adjustments for policyholder behavior to rate actions.

### Base Incidence Actual to Expected Analysis

The below table summarizes the results of the experience study for ILTC base incidence rates, which includes experience over the past ten years. These tables show policy experience prior to any rate increases in order to avoid distortion caused by temporary anti-selection, which is layered on separately. This explains the shrinking exposure years over time. Something of note is the Individual Long-Term Care block has undergone significant rate action initiatives over the recent past, causing limited credibility that may not be representative of nationwide experience. This experience was factored into the assumption setting process but weighted according to the exposures shown below:

Best-Estimate Incidence A/E Results Individual Long Term Care						
Calendar Year	Exposures (Years)	Actual Claims	Expected Claims	Actual Incidence Rate	Expected Incidence Rate	Actual / Expected
2010	243,073	5,206	5,503	2.14%	2.26%	95%
2011	233,060	5,325	5,750	2.28%	2.47%	93%
2012	222,734	5,666	6,075	2.54%	2.73%	93%
2013	212,130	6,017	6,196	2.84%	2.92%	97%

2014	200,678	6,395	6,343	3.19%	3.16%	101%
2015	189,684	6,923	6,396	3.65%	3.37%	108%
2016	178,602	6,590	6,395	3.69%	3.58%	103%
2017	168,277	6,858	6,509	4.08%	3.87%	105%
2018	158,506	6,735	6,480	4.25%	4.09%	104%
2019	150,028	6,522	6,617	4.35%	4.41%	99%
Total	1,956,772	62,237	62,264	3.18%	3.18%	100%

### Base Incidence Assumption

The base incidence rates are single-dimensional tables that vary by attained age. These base incidence tables vary by the following:

- Whether the policy covers comprehensive or facility only benefits
- The situs of the claim (Nursing Home, Home Health Care, Assisted Living Facility)
- Gender

A sample table is shown below:

**Plan Type:** Comprehensive **Situs:** Assisted Living Facility

Gender: Male

Attained Age	Annual Incidence Rate (%)	
44 and Prior	0.0009%	
45	0.0011%	
46	0.0013%	
47	0.0015%	
55	0.0057%	
56	0.0067%	
57	0.0079%	
65	0.0295%	
66	0.0348%	
67	0.0410%	
75	0.1655%	
76	0.1976%	
77	0.2358%	
85	0.9667%	
86	1.1525%	

87	1.3738%%
88	0.9633%
89	1.6593%
90	1.8232%
91	1.4466%
92	2.1559%
95	2.7720%
96 to 120	3.0142%

### Incidence Rate Adjustment Factors

There are a number of incidence rate adjustment factors that are applied to adjust the base incidence tables for various policy features. The annual experience study reviews these adjustment factors and provides updates as needed. The incidence adjustment factors are shown below:

Category	Variable/Benefit Feature	Adjustment Factor
	Preferred	1.0000
Underwriting Class	Standard	1.3082
	Substandard	1.3622
	0 Days	1.0000
Elimination Period	1-89 Days	0.8068
	90+ Days	0.8068
Donafit Dariad	Lifetime	1.2418
Benefit Period	Non-Lifetime	1.0000
T Ot . I	Tax Qualified	0.8366
Tax Status	Non-Tax Qualified	1.0000

### Temporary Anti-Selection Overview

As part of the company's annual experience study, the relationship between premium rate actions and incidence rates were developed into an assumption set. At any time, there is a subset of policyholders that already qualify for their long term care benefits, but have not utilized the policy. When a rate increase notification is received, some of these policyholders will go on claim to avoid paying the increased premium, since their premium rates will be waived. This phenomenon is known as anti-selection or 'shock morbidity'. We are using a durational impact of 1 year and severity of 10% for ILTC. *Future Incidence Improvement (i.e. Morbidity Improvement)* 

No future incidence improvement is assumed.

### **Model Calibration**

The morbidity assumptions are intended to reflect the best-estimate of the long term. Long-Term Care policies are complex and have multiple decrements. Assumptions are developed independently and when combined in the model, they do not always produce results that seem reasonable. Model calibration is performed when necessary to fit the model to the long term view.

A dynamic validation was performed by modeling our best-estimate assumptions with inforce liability data as of December 31, 2018 to see how well the assumptions would replicate actual historical experience in the near term. This analysis was performed separately for ILTC and GLTC. Based on how well the model 'fits' actual claims experience, additional incidence calibration factors may be applied. A temporary ILTC calibration factor of 1.05 starting in 2019 and linearly grading down to 1.00 by 2025 was selected to recalibrate experience such that the model fits better in the near term.

Calendar Year	Calibration Factors
2018	1.0583
2019	1.0500
2020	1.0417
2021	1.0333
2022	1.0250
2023	1.0167
2024	1.0083
2025+	1.0000

### **Claim Severity**

In the projection system, the severity of claim is the associated length and cost of a claim once an insured becomes disabled (or is already disabled). The severity of a claim is driven by three key assumptions:

- Claim Recovery
- Benefit Utilization
- Disabled Life Mortality

A further breakdown of these three components is described below.

### Recovery Overview

Once a policyholder is on claim, there is an associated probability that the policyholder will recover back in to a 'healthy' status prior to death or exhausting benefits. This is the recovery rate assumption in the projection model.

### Recovery Actual to Expected Analysis

The below table summarizes the results of the experience study for ILTC recovery rates, which includes experience over the past seven years:

	Best-Estimate Recovery A/E Results Individual Long Term Care								
		Actuals		С	urrent Claims		F	uture Claims	
Calendar Year	Exposures (Years)	Actual Recoveries	Actual Recovery Rate	Expected Recoveries	Expected Recovery Rate	Actual / Expected	Expected Recoveries	Expected Recovery Rate	Actual / Expected
2015	13,645	1,437	10.5%	1,496	11.0%	96%	1,483	10.9%	97%
2016	14,228	1,498	10.5%	1,489	10.5%	101%	1,473	10.4%	102%
2017	14,699	1,441	9.8%	1,451	9.9%	99%	1,445	9.8%	100%
2018	15,003	1,415	9.4%	1,426	9.5%	99%	1,431	9.5%	99%
2019	15,113	1,519	10.1%	1,415	9.4%	107%	1,398	9.3%	109%
Total	72,688	7,310	10.1%	7,277	10.0%	101%	7,230	9.9%	101%

### Recovery Assumption

The recovery tables are two-dimensional that vary by age of disability and disability duration. The first five years of the tables contain monthly rates and are annual thereafter. The recovery tables vary by the following:

- Benefit period (lifetime vs non-lifetime)
- Gender
- Presence of a restoration of benefits rider
- The situs of the claim (Nursing Home, Home Health Care, Assisted Living Facility)
- Diagnosis of the claim (for insureds currently on claim)
- Tax-qualified status (tax-qualified, not tax-qualified)
- Eliminated period (0 day, 1-89 day, 90+ day)

Insureds that are currently in claim status have a known situs of care, so the recovery rates will be different than a policy currently in healthy status, since the future claim situs is unknown.

A sample table is shown below for sample ages of disablement (rates shown are on a monthly basis):

Policyholder Status: Healthy Benefit Period: Lifetime

Gender: Female

Restoration of Benefits: No

**Situs:** Nursing Home (original, since policy is healthy)

**Tax-Qualified Status:** Not tax-qualified **Elimination Period:** 1 to 89 days

Dischility Month	Disablement Age						
Disability Month	65	75	85	95			
1	3.35%	2.36%	1.65%	1.40%			
2	6.71%	4.71%	3.30%	2.80%			
3	4.96%	3.49%	2.44%	2.07%			
4	3.70%	2.60%	1.82%	1.54%			
5	2.86%	2.01%	1.40%	1.19%			
6	1.75%	1.23%	0.86%	0.73%			
7	1.15%	0.81%	0.56%	0.48%			
8	0.73%	0.51%	0.36%	0.30%			
9	0.52%	0.37%	0.26%	0.22%			
10	0.47%	0.33%	0.23%	0.20%			
11	0.43%	0.30%	0.21%	0.18%			
12	0.40%	0.28%	0.19%	0.17%			

### **Utilization Overview**

The utilization assumption in the model for expense reimbursement policies represent the amounts, or severity, of paid claims and include components for cost of care, coverage available and the intensity of care ("health trend"). The available benefit is also considered by capping paid claims at the daily benefit amount.

Expense reimbursement refers to policies that are reimbursed up to the maximum daily benefit. They are considered separately from indemnity policies because indemnity policies pay the full maximum daily benefit. Expense reimbursement claim amounts are affected by cost of care inflation, intensity of care (referred to as "health trend"), and the amount of initial coverage purchased.

Health trends represent the intensity of care needed for claimants. Health trend is the ratio of inflation-adjusted paid claims divided by initial available benefits:

$$Health \, Trend = \frac{\frac{Paid \, Claim}{(1 + CostOfCare \, Inflation)^{(Experience \, Year - Issu \, Year)}}{Initial \, Available \, Benefits}$$

Indemnity policies have separate utilization assumptions from expense reimbursement policies because they pay their full available benefits and are not dependent on cost or intensity of care. Although indemnity policies pay the full maximum daily benefit, utilization rates are still below 100% because insureds are not in facilities 100% of the time. For example, if an insured is only in a facility 28 out of the 30 days in each month, then they would have a utilization rate equal to

28/30 = 93%. This is because benefit periods are based on service days and not strictly calendar days.

The utilization cost of care assumption is based on statutory valuation assumptions.

### Utilization Actual to Expected Analysis

The below table summarizes the results of the experience study for ILTC utilization rates, which includes experience over the past seven years:

	Best-Estimate Utilization A/E Results – All Policies Individual Long Term Care											
			Current	Claims					Future	Claims		
Calend ar Year	Maximu m Availabl e Benefit (\$million s)	Actual Paid Claims (\$million s)	Actual Utilizatio n Rate	Expecte d Paid Claims (\$million s)	Expecte d Utilizatio n Rate	Actual / Expecte d	Maximu m Availabl e Benefit (\$million s)	Actual Paid Claims (\$million s)	Actual Utilizatio n Rate	Expecte d Paid Claims (\$million s)	Expecte d Utilizatio n Rate	Actual / Expecte d
2013	675	471	70%	461	68%	102%	675	471	70%	474	70%	99%
2014	748	518	69%	508	68%	102%	748	518	69%	523	70%	99%
2015	824	562	68%	552	67%	102%	824	652	68%	567	69%	99%
2016	909	623	69%	607	67%	103%	909	623	69%	623	69%	100%
2017	978	666	68%	649	66%	103%	978	666	68%	667	68%	100%
2018	1,052	707	67%	692	66%	102%	1,052	707	67%	712	68%	99%
2019	1,117	747	67%	732	66%	102%	1,117	747	67%	750	67%	100%
Total	6,302	4,294	68%	4,201	67%	102%	6,302	4,294	68%	4,316	68%	99%

### **Utilization Assumption**

The health trend component of utilization tables are two-dimensional that vary by age of disability and disability duration. The first five years of the tables contain monthly rates and are annual thereafter. These tables vary by the following:

- Benefit Period (lifetime vs non-lifetime)
- Inflation type (simple, compound, none)
- Home health care percentage (0%, 1%-50%, 50%-75%, 75%+)
- The situs of the claim (Nursing Home, Home Health Care, Assisted Living Facility)
- Diagnosis of the claim (for insureds currently on claim)

In addition, the situs varies on whether the policyholder is healthy (original situs) versus disabled (current situs). A sample health trend table is shown below for sample ages of disablement (rates shown are on a monthly basis):

Insured Status: Disabled
Benefit Period: Non-Lifetime
Inflation Type: Compound

Home Health Care Percentage: N/A (since situs is not home health care)

Situs: Assisted Living Facility (current, since policy is disabled)

Payment Type: Reimbursement

Diagnosis: Other

Dischility Month	Disablement Age						
Disability Month	65	75	85	95			
1	99%	91%	88%	90%			
2	60%	66%	72%	74%			
3	69%	75%	80%	85%			
4	63%	65%	72%	77%			
5	70%	72%	79%	82%			
6	71%	75%	79%	82%			
7	76%	76%	81%	85%			
8	76%	77%	82%	85%			
9	76%	77%	81%	83%			
10	79%	77%	82%	85%			
11	80%	80%	83%	86%			
12	79%	80%	83%	86%			
•••							

Cost of care tables are two-dimensional vectors that vary by calendar year and inflation type for reimbursement policies. The average cost of care is summarized below:

	Cost of Care - ILTC							
Inflation Type	Historical Rate	Ultimate Rate						
None	0.12%	0.53%						
Simple	2.52%	2.93%						
Compound	3.97%	4.38%						

### Disabled Life Mortality Overview

Once an insured is on claim, there is an associated probability that the insured will decrement due to death, which influences the overall length of a claim. Generally, the probability of death from a currently disabled insured is greater than the probability associated with a currently healthy insured, so separate assumptions are developed and modeled.

### Disabled Life Mortality Actual to Expected Analysis

The below table summarizes the results of the experience study for ILTC disabled mortality rates, which includes experience over the past five years:

	Best-Estimate Disabled Mortality A/E Results Individual Long Term Care								
		Actuals		С	urrent Claim	ıs	F	uture Claim	S
Calendar Year	Exposures	Disabled Deaths	Disabled Mortality Rate	Expected Disabled Deaths	Expected Disabled Mortality Rate	Actual / Expected	Expected Disabled Deaths	Expected Disabled Mortality Rate	Actual / Expected
2015	13,645	4,172	30.6%	4,008	29.4%	104%	4,013	29.4%	104%
2016	14,228	4,183	29.4%	4,196	29.5%	100%	4,197	29.5%	100%
2017	14,699	4,376	29.8%	4,359	29.7	100%	4,363	29.7%	100%
2018	15,003	4,431	29.5%	4,460	29.7%	99%	4,478	29.8%	99%
2019	15,113	4,416	29.2%	4,531	30.0%	97%	4,544	30.0%	97%
Total	72,688	21,578	29.7%	21,554	29.7%	100%	21,595	29.7%	100%

### Disabled Life Mortality Assumption

The disabled life mortality rates are two-dimensional tables that vary by age of disability and disability duration. Similar to the other severity assumptions, the first five years of the tables contain monthly rates and are annual thereafter. The disabled life mortality tables vary by the following:

- Benefit period (lifetime vs non-lifetime)
- The situs of the claim (Nursing Home, Home Health Care, Assisted Living Facility)
- Gender
- Diagnosis of the claim (for insureds currently on claim)

Insureds that are currently in claim status have a known situs of care, so the disabled life mortality rates will be different than a policy currently in healthy status, since the future claim situs is unknown.

A sample table is shown below for sample ages of disablement (rates shown are on a monthly basis):

Insured Status: Healthy
Benefit Period: Non-Lifetime

Situs: Nursing Home (original, since policy is healthy)

Gender: Male

**Diagnosis:** N/A (since status is healthy)

Dischility Month	Disablement Age						
Disability Month	65	75	85	95			
1	2.14%	3.15%	3.58%	4.25%			
2	2.84%	4.17%	4.74%	5.62%			
3	3.07%	4.50%	5.11%	6.07%			

4	3.46%	5.07%	5.76%	6.84%
5	3.07%	4.51%	5.12%	6.08%
6	2.68%	3.93%	4.47%	5.31%
7-12	2.10%	3.008%	3.50%	4.16%
13-18	1.80%	2.65%	3.05%	3.77%
19-24	1.82%	2.68%	3.08%	3.81%
25-36	2.07%	3.03%	3.53%	4.61%
37-48	2.23%	3.19%	3.76%	5.22%
49-60	2.47%	3.41%	4.06%	6.04%

### **Transitions of Situs**

Following the annual claim reserve review, adjustments were made to the assumptions to account for transitions of situs. The result of these adjustments produced smoother claim development and a better fit in the dynamic validation. The following tables summarize these adjustments.

	Claim Closures (Recovery & Disabled Life Mortality)								
Product	Gender	Benefit	1-12	13-24	25-36	37-48	49-60	61-72	>72
Troduct	Geridei	Period	1-12	10-24	20-00	37-40	49-00	01-72	-12
	Female	Unlimited	1.00	1.00	1.00	1.00	1.00	1.00	1.00
ILTC	1 Ciliale	Limited	1.00	1.00	0.80	0.80	0.90	1.00	1.00
ILIO	Male	Unlimited	1.00	1.00	1.00	1.00	1.00	1.00	0.75
		Limited	1.00	1.00	0.80	0.80	0.90	1.00	0.75

	Utilization								
Product	Payment Type	Inflation Type	1-12	13-24	25-36	37-48	49-60	61-72	>72
		С	1.20	1.20	1.20	1.20	1.20	1.20	1.20
	Exp. Inc.	S	1.20	1.20	1.20	1.20	1.20	1.20	1.20
ILTC		N	1.20	1.20	1.20	1.20	1.20	1.20	1.20
ILIO		С	1.05	1.05	1.05	1.05	1.05	1.05	1.05
	Indemnity	S	1.05	1.05	1.05	1.05	1.05	1.05	1.05
		N	1.05	1.05	1.05	1.05	1.05	1.05	1.05

### **Persistency**

In the projection system, the persistency assumptions relate to the probability that policyholders not on claim will lapse or die. Policyholder reduced benefit options are considered part of the persistency assumption and are modeled as partial lapses in the projection system. The persistency of an insured is driven by following key assumptions:

Voluntary Lapse

- Shock Lapse and Reduced Benefit Option ("RBO")
- Shock Mortality
- Healthy Life Mortality
- Healthy Life Mortality Improvement

A further breakdown of these components is described below.

### Voluntary Lapse Overview

The voluntary lapse assumption reflects the probability associated with an insured voluntarily canceling their policy. The voluntary lapse rates differ from shock lapse rates in that the policy cancelation is not due to a rate increase notification.

### Voluntary Lapse Actual to Expected Analysis

The below table summarizes the results of the experience study for ILTC voluntary lapse rates, which includes experience over the past seven years:

	Best-Estimate Base Voluntary Lapse A/E Results Individual Long Term Care								
Calendar Year	Exposures (Years)	Actual Lapse	Expected Lapse	Actual Lapse Rate	Expected Lapse Rate	Actual / Expected			
2013	206,775	1,879	1,678	0.91%	0.75%	112%			
2014	193,954	1,703	1,458	0.88%	0.70%	117%			
2015	182,172	1,403	1,283	0.77%	0.67%	109%			
2016	170,825	1,250	1,145	0.73%	0.65%	109%			
2017	160,433	1,045	1,039	0.65%	0.64%	101%			
2018	150,258	1,059	965	0.71%	0.65%	110%			
2019	140,168	857	906	0.61%	0.65%	95%			
Total	1,246,574	9,197	8,474	0.76%	0.70%	109%			

### Voluntary Lapse Assumption

The voluntary lapse tables are one-dimensional varying by policy duration. The voluntary lapse assumptions vary by the following:

- Benefit Period (lifetime vs non-lifetime)
- Inflation Type (simple, compound, none)
- Product
- Limited Pay Adjustment

A sample voluntary lapse table is shown below:

**Product: ILTC** 

**Benefit Period:** Lifetime **Inflation Type:** None

Policy Duration	Base Voluntary Lapse Rate
1	7.45%
2	4.45%
3	3.45%
4	2.95%
5	2.55%
6	2.20%
7	1.90%
8	1.65%
9	1.45%
10	1.25%
11	1.05%
12	0.95%
13	0.90%
14	0.85%
15	0.80%
16+	0.75%

### Shock Lapse and Reduced Benefit Option

The shock lapse and RBO assumptions are modeled as an increase in lapse rates in response to a rate increase. Shock lapse and RBO assumptions are determined by calculating the lapse rates in excess of base lapse rates during the years when a premium rate action occurs.

The assumed rates for each of these components are outlined in the below table for the ILTC product:

Rate Increase	Total Additional Lapse % from Shock and RBO*
0%	0.00%
5%	0.47%
10%	1.18%
15%	1.87%
20%	2.56%
25%	3.24%
30%	3.90%

35%	4.56%
40%	5.21%
45%	5.84%
50%	6.47%
55%	7.09%
60%	7.69%
65%	8.29%
70%	8.88%
75%	9.46%
80%	10.02%
85%	10.37%
90%	10.72%
95%	11.07%
100%	11.42%

## Healthy Life Mortality Overview

The healthy life mortality assumption is the probability of death associated with currently healthy insureds.

## Healthy Life Mortality Actual to Expected Analysis

The below table summarizes the results of the experience study for ILTC healthy life mortality rates, which includes experience from 2013 to 2019:

Best-Estimate Healthy Life Mortality A/E Results Individual Long Term Care						
Calendar Year	Exposures (Years)	Actual Death	Expected Death	Actual Death Rate	Expected Death Rate	Actual / Expected
2013	207,435	4,559	4,751	2.20%	2.29%	96%
2014	197,707	4,787	4,663	2.46%	2.39%	103%
2015	182,998	4,194	4,102	2.29%	2.24%	102%
2016	171,680	3,918	3,990	2.28%	2.32%	98%
2017	161,263	3,558	3,680	2.21%	2.28%	97%
2018	151,054	3,700	3,369	2.45%	2.23%	110%
2019	140,904	3,165	3,070	2.25%	2.18%	103%
Total	1,210,040	27,881	27,624	2.30%	2.28%	101%

## Healthy Life Mortality Assumption

The base table for the healthy life mortality assumption is the 2012 IAM table, with additional multipliers based on company experience. There are also adjustments at higher attained ages,

due to lack of credibility. At higher ages, the assumptions grade their credibility weighting from 100% of the best-estimate assumption at age 95, to 100% of the 2012 IAM tables at ages 105 and later. These base tables vary by gender and attained age. The additional multipliers to these base tables based on CCC's experience are as follows:

Category	Variable/Benefit Feature	Adjustment Factors
	0-59	68%
	60-64	61%
	65-69	60%
Attained Age	70-74	114%
Attained Age	75-79	107%
	80-84	93%
	85-89	83%
	90-94	91%
Gender	Male	100%
Geridei	Female	90%
	Preferred	85%
Underwriting Class	Standard	131%
	Substandard	160%
	2014 and Prior	1.00
	2015	0.90
	2016	0.90
	2017	0.85
	2018	0.80
	2019	0.75
	2020	0.70
Calendar Year	2021	0.70
	2022	0.70
	2023	0.75
	2024	0.80
	2025	0.85
	2026	0.90
	2027	0.95
	2028+	1.00

Healthy Life Mortality Improvement

A healthy life mortality improvement factor is applied to the base healthy mortality table to reflect studies that examine the improvement of population mortality over time, based on improvement scale G2. The healthy life mortality improvement varies by gender and attained age with improvement beginning 1/1/2017 for 10 years. An example is shown below for reference:

Gender: Female

Attained Age	Annualized Improvement
<=50	1.00%
50	1.00%
60	1.30%
70	1.30%
80	1.30%
90	0.60%
100	0.20%
105	0.00%

## 6. Discount Rate

The inforce count-weighted average maximum statutory valuation interest rate for contract reserves of 4.50% is used to accumulate past actual experience and discount future expectations.

# 7. Expenses

This filing is based on loss ratios and expense levels have not been considered. Commissions are not paid on rate increase premiums.

## 8. Marketing Method

These policies were sold directly through non-captive agents.

## 9. Underwriting Description

These policy forms were fully underwritten with the use of various tools in addition to the application, which may have included medical records, an attending physician's statement, telephone interviews, and/or face-to-face assessments.

## 10. Premiums

Premiums are unisex and payable for life unless the insured selected a limited pay option. The premiums may vary by issue age, elimination period, benefit period / lifetime maximum, initial daily benefit amount,

level of home health care coverage, inflation type, premium mode, underwriting class, marital status, and the selection of any other options or riders.

## 11. Modal Premium Factors

The following modal factors remain unchanged and are applied to the annual premium to obtain the modal premium.

Payment Mode	Modal Factor	Nationwide Premium Distribution at Dec. 31, 2020
Annual	1.000	61.2%
Semi-Annual	0.520	8.3%
Quarterly	0.270	12.0%
Monthly	0.090	18.6%

# 12. Issue Age Range

Issue ages range from 18 to 84.

## 13. Area Factors

Area factors are not used for these policy forms.

## 14. Average Annualized Premium

The average annualized premium for the policy forms subject to the rate increase request, both before and after the impact of the requested rate increase, is included in Exhibit 1.

## 15. Number of Insureds

The current number of insureds as of December 31, 2020 can be found in Exhibit 1.

## 16. Distribution of Business

The historical experience reflects the actual distribution of insureds during the experience period. The current distribution of business as of December 31, 2020 was used to project future experience. Exhibit 2 contains the distribution of the inforce insureds by key demographic and benefit characteristics.

## 17. Claim Liability and Reserves

Active life reserves have not been used in this rate increase analysis. Claim reserves as of December 31, 2020 have been discounted to the incurral date of each respective claim and included in historical incurred claims. Incurred but not reported reserve ("IBNR") balances and terminated but not reported reserve ("TBNR") balances as of December 31, 2020 have been allocated to a calendar year of incurral and included in historical incurred claims.

# 18. Trend Assumptions

As this is not medical insurance, explicit medical cost trends have not been included in the projections.

## 19. Experience – Past and Future

Earned premiums and incurred claims, projected through 2079 are developed from a first-principles actuarial model representing actual contracts in-force as of December 31, 2020. The assumptions described in Section 5 are used to project earned premiums and incurred claims.

Waived premiums are not included as premiums nor claims in either the actual historical or the projected future experience.

Historical results reflect earned premium by calendar year with claims captured by incurral year. That is, incurred claims for a calendar year represent all payments through December 31, 2020 for a claim incurred in a particular calendar year plus any claim reserve held as of December 31, 2020. Incurred claims also include IBNR and TBNR held as of December 31, 2020.

Exhibit 3 presents nationwide experience as described in Section 21 for all forms affected by this rate increase to ensure maximum credibility. Although we believe the State-specific data is not credible on its own, we are including State-specific experience through December 31, 2020 for reference in Exhibit 4.

Annual loss ratios are calculated, with and without interest, as incurred claims divided by earned premiums.

A lifetime loss ratio as of December 31, 2020 is calculated as the sum of accumulated past experience and discounted future expectations using the nationwide inforce count-weighted average maximum statutory valuation interest rate for contract reserves.

## 20. History of Rate Adjustments

See Exhibit 1 for a history of prior rate adjustments in your state.

## 21. Ensuring No Cross-Subsidization Between States

We have ensured no state's rate increase approvals will subsidize other states' experience. Rate increase requests will vary by state, but only to reflect the timing and amount of prior rate increases approved by that state. This is accomplished by first backing-out all prior rate increases from our nationwide premium data. We then reintroduce prior rate increases with the amount and timing based on your state's prior approvals (as referenced in Section 19). The current proposed rate increase(s) are then determined.

Although some states may have capped our previous inforce rate increase filings, it is the intention of CCC's management that subsequent filings will be submitted at a later date until an actuarially equivalent amount is achieved.

# 22. Requested Rate Increase and Demonstration of Satisfaction of Requirements

CCC is requesting a rate increase on the policy forms included in this filing, to be implemented over one year. The rate increase varies by benefit period and AIB rider as follows:

Preferred Advantage	Policies with AIB Rider	Policies without AIB Rider
Unlimited Lifetime Max Benefits	60.0%	35.0%
Non-Lifetime Max Benefits	35.0%	0.0%

TQ	Policies with AIB Rider	Policies without AIB Rider
Unlimited Lifetime Max Benefits	60.0%	35.0%
Non-Lifetime Max Benefits	35.0%	0.0%

Please see the Supplement to Rate Sheet for details on the implementation schedule.

Corresponding rate schedules reflecting the increase are included with this filing. Although this request is less than CCC can justify, we are limiting our rate increase request at this time. CCC will continue to monitor the experience of this block and take appropriate actions when necessary.

Upon approval of this rate revision, CCC will communicate to insureds their options to reduce the impact of the rate increase. These options may include increasing the elimination period, reducing the lifetime maximum, reducing the daily benefit or eliminating optional riders. Because the requested rate increase applies to policies with an AIB rider, insureds with an AIB rider who choose to drop it (i.e. Freeze and Drop) will:

- Not be subject to the AIB rate increase;
- · Retain their inflated benefits as of the effective date of the coverage change; and
- Be charged an original issue age premium based on the original non-inflated benefits.

Available options will depend upon the insured's current coverage levels, benefit options available under their specific policy form, and any statutory minimum benefit levels in your state.

In addition, the Company is making a number of alternative options available for all insureds in conjunction with this rate increase. The first option provides an Increased Contingent Non-Forfeiture ("ICNF") benefit upon lapse. If this benefit is elected by the insured, the insured will not have to pay prospective premium, and their remaining benefit pool amount will equate to 150% of lifetime premiums paid, capped at current remaining lifetime benefits.

The second option that is being offered to insureds is the "Surrender Option". If this option is elected by the insured, the insured will surrender their policy in return for a one-time cash payment from the Company. The amount of the one-time cash surrender payment is equal to the unisex-adjusted statutory active life reserve held for the specific insured.

Both of the above alternative options will be offered to all insureds in your state, regardless of whether or not they receive a rate increase, in order to ensure fairness within the product portfolio. If a policy lapses due to non-payment of premiums without notifying the Company of the insured's intention to elect any of the above options, the insured's coverage will default to a standard 100% CNF benefit.

Note that the actual rates implemented may vary slightly from those filed due to implementation rounding algorithms.

Satisfaction of minimum required loss ratio requirements is demonstrated in Exhibit 1. This approach shows that with the requested rate increase, the expected lifetime loss ratio exceeds the minimum loss ratio requirement.

## 23. Proposed Effective Date

The rate increase will apply to policies on their next policy anniversary date following a notification period at least as long as required by your state following approval. No insured will receive more than one increase in a 12 month period.

### 24. Actuarial Certification

I am an Associate of the Society of Actuaries and a Member of the American Academy of Actuaries. I meet the Academy's qualification standards to render this actuarial opinion and am familiar with the filing requirements for long term care insurance premium and rate increases.

This memorandum has been prepared in conformity with all applicable Actuarial Standards of Practice ("ASOP"), including, but not limited to, the following:

• ASOP 7, "Analysis of Life, Health, or Property/Casualty Insurer Cash Flows";

- ASOP 8, "Regulatory Filings for Health Benefits, Accident and Health Insurance, and Entities Providing Health Benefits";
- ASOP 18, "Long Term Care Insurance";
- ASOP 23, "Data Quality"; and
- ASOP 41, "Actuarial Communications".

I have relied upon policy and claim information extracts, as of December 31, 2020, which contain a seriatim listing of all insureds covered under CCC Long Term Care insurance contracts. I have also relied upon associated paid premium extracts providing details of payment dates and amounts. I have also relied upon associated paid claim extracts providing details by claim regarding payment dates, service dates, benefit types and payment amounts. This information was provided by CCC's Long Term Care Operations team in partnership with our Third Party Administrator.

I have relied upon statutory reserves as of December 31, 2020, for Claims Reserves, Incurred but Not Reported reserves, and Terminated but Not Reported Reserves, provided by CCC's Long Term Care Finance and Reserving team.

I have relied upon actuarial assumptions developed by CCC's Long Term Care Projections and Experience Studies team, which develops assumptions primarily for asset and reserve adequacy analysis, under the direction of the opining actuary, John Munro, FSA, MAAA, who approved those assumptions in collaboration with other CCC Long Term Care actuaries, including Inforce Management actuaries. These assumptions present the actuary's best judgement, as of December 31, 2020. We have reviewed these assumptions for reasonableness and consistency for use in this filing.

I hereby certify that, to the best of my knowledge and judgement, this rate filing is in compliance with the applicable laws and regulations of your state. In my opinion, the actuarial assumptions are appropriate and the rates are neither excessive nor unfairly discriminatory.

Rate Increase Filing for OP Gen2 (Preferred Advantage, TQ)
Individual Long Term Care Policy Forms:

Dear Mr. Hibbert:

Thank you for your review of the above referenced filing. This letter is in response to your objection dated March 9, 2022. The objection items are restated below in *italics*, with responses in blue:

1. Please provide a table in an Excel spreadsheet (perhaps similar to Exhibit 3a – Lifetime Benefits & Standard Inflation) for this nationwide block of Preferred Advantage policies which shows the historical and projected nationwide earned premium and incurred claims on a calendar year basis assuming no rate increase is granted. Please restate the nationwide historical and projected earned premium so that the business from inception appears to have all been earned at the original rate level. The original rate level is the rate level that would have existed if no increase was ever granted on any policy nationwide. Answer this question considering only the policies represented in Exhibit 3a (i.e. Preferred Advantage Lifetime Benefits & Standard Inflation).

Please see the attached "Item 1 – Exhibit 3a\_Original Rate Level.xIsx" worksheet, containing the adjusted Nationwide experience exhibit, restated to the Original Rate Level (i.e., with all rate increase assumptions removed).

2. Please provide the percent of active Preferred Advantage policyholders remaining on a nationwide basis. How many Preferred Advantage policies were issued nationwide? How many policies remain in force nationwide? Answer this question considering only the policies represented in Exhibit 3a (i.e. Preferred Advantage Lifetime Benefits & Standard Inflation).

Please see the figures shown below:

Total Policies Issued	11,694
Total Policies Inforce	4,781
Percent of Policies Remaining Inforce	40.9%

3. Please provide the cumulative weighted average increase granted on policies in force on this block in PA. Answer this question considering only the policies represented in Exhibit 3a (i.e. Preferred Advantage Lifetime Benefits & Standard Inflation).

For PA Preferred Advantage policies With Lifetime Benefits & With Standard Inflation (represented in Exhibit 3a), the cumulative rate increase approved amount is 192.6%.

4. Please provide a table in an Excel spreadsheet (perhaps similar to Exhibit 3b – without Lifetime Benefits & with Standard Inflation) for this nationwide block of Preferred Advantage policies which shows the historical and projected nationwide earned premium and incurred claims on a calendar year basis assuming no rate increase is granted. Please restate the nationwide historical and projected earned premium so that the business from inception appears to have all been earned at the original rate level. The original rate level is the rate level that would have existed if no increase was ever granted on any policy nationwide. Answer this question considering only the policies represented in Exhibit 3b (i.e. Preferred Advantage without Lifetime Benefits & with Standard Inflation).

Please see the attached "Item 4 – Exhibit 3b\_Original Rate Level.xlsx" worksheet, containing the adjusted Nationwide experience exhibit, restated to the Original Rate Level (i.e., with all rate increase assumptions removed).

5. Please provide the percent of active Preferred Advantage policyholders remaining on a nationwide basis. How many Preferred Advantage policies were issued nationwide? How many policies remain in force nationwide? Answer this question considering only the policies represented in Exhibit 3b (i.e. Preferred Advantage without Lifetime Benefits & with Standard Inflation).

Please see the figures shown below:

Total Policies Issued	22,733
Total Policies Inforce	6,150
Percent of Policies Remaining Inforce	27.1%

6. Please provide the cumulative weighted average increase granted on policies in force on this block in PA. Answer this question considering only the policies represented in Exhibit 3b (i.e. Preferred Advantage without Lifetime Benefits & with Standard Inflation).

For PA Preferred Advantage policies Without Lifetime Benefits & With Standard Inflation (represented in Exhibit 3b), the cumulative rate increase approved amount is 192.6%.

7. Please provide a table in an Excel spreadsheet (perhaps similar to Exhibit 3c – with Lifetime Benefits & without Standard Inflation) for this nationwide block of Preferred Advantage policies which shows the historical and projected nationwide earned premium and incurred claims on a calendar year basis assuming no rate increase is granted. Please restate the nationwide historical and projected earned premium so that the business from inception appears to have all been earned at the original rate level. The original rate level is the rate level that would have existed if no increase was ever granted on any policy nationwide. Answer this question considering only the policies represented in Exhibit 3c (i.e. Preferred Advantage with Lifetime Benefits & without Standard Inflation).

Please see the attached "Item 7 – Exhibit 3c\_Original Rate Level.xlsx" worksheet, containing the adjusted Nationwide experience exhibit, restated to the Original Rate Level (i.e., with all rate increase assumptions removed).

8. Please provide the percent of active Preferred Advantage policyholders remaining on a nationwide basis. How many Preferred Advantage policies were issued nationwide? How many policies remain in force nationwide? Answer this question considering only the policies represented in Exhibit 3c (i.e. with Preferred Advantage Lifetime Benefits & without Standard Inflation).

Please see the figures shown below:

Total Policies Issued	5,366
Total Policies Inforce	1,252
Percent of Policies Remaining Inforce	23.3%

9. Please provide the cumulative weighted average increase granted on policies in force on this block in PA. Answer this question considering only the policies represented in Exhibit 3c (i.e. Preferred Advantage with Lifetime Benefits & without Standard Inflation).

For PA Preferred Advantage policies With Lifetime Benefits & Without Standard Inflation (represented in Exhibit 3c), the cumulative rate increase approved amount is 192.6%.

10. Please provide a table in an Excel spreadsheet (perhaps similar to Exhibit 3d – with Lifetime Benefits & Standard Inflation) for this nationwide block of TQ policies which shows the historical and projected nationwide earned premium and incurred claims on a calendar year basis assuming no rate increase is granted. Please restate the nationwide historical and projected earned premium so that the business from inception appears to have all been earned at the original rate level. The original rate level is the rate level that would have existed if no increase was ever granted on any policy nationwide. Answer this question considering only the policies represented in Exhibit 3d (i.e. TQ with Lifetime Benefits & Standard Inflation).

Please see the attached "Item 10 – Exhibit 3d\_Original Rate Level.xlsx" worksheet, containing the adjusted Nationwide experience exhibit, restated to the Original Rate Level (i.e., with all rate increase assumptions removed).

11. Please provide the percent of active TQ policyholders remaining on a nationwide basis. How many TQ policies were issued nationwide? How many policies remain in force nationwide? Answer this question considering only the policies represented in Exhibit 3d (i.e. TQ with Lifetime Benefits & Standard Inflation).

Please see the figures shown below:

Total Policies Issued	14,499
Total Policies Inforce	6,612
Percent of Policies Remaining Inforce	45.6%

12. Please provide the cumulative weighted average increase granted on policies in force on this block in PA. Answer this question considering only the policies represented in Exhibit 3d (i.e. TQ with Lifetime Benefits & Standard Inflation).

For PA TQ policies With Lifetime Benefits & With Standard Inflation (represented in Exhibit 3d), the cumulative rate increase approved amount is 163.4%.

13. Please provide a table in an Excel spreadsheet (perhaps similar to Exhibit 3e – without Lifetime Benefits & with Standard Inflation) for this nationwide block of TQ policies which shows the historical and projected nationwide earned premium and incurred claims on a calendar year basis assuming no rate increase is granted. Please restate the nationwide historical and projected earned premium so that the business from inception appears to have all been earned at the original rate level. The original rate level is the rate level that would have existed if no increase was ever granted on any policy nationwide. Answer this question considering only the policies represented in Exhibit 3e (i.e. TQ without Lifetime Benefits & with Standard Inflation).

Please see the attached "Item 13 – Exhibit 3e\_Original Rate Level.xIsx" worksheet, containing the adjusted Nationwide experience exhibit, restated to the Original Rate Level (i.e., with all rate increase assumptions removed).

14. Please provide the percent of active TQ policyholders remaining on a nationwide basis. How many TQ policies were issued nationwide? How many policies remain in force nationwide? Answer this question considering only the policies represented in Exhibit 3e (i.e. TQ without Lifetime Benefits & with Standard Inflation).

Please see the figures shown below:

Total Policies Issued	29,210
Total Policies Inforce	10,530
Percent of Policies Remaining Inforce	36.0%

15. Please provide the cumulative weighted average increase granted on policies in force on this block in PA. Answer this question considering only the policies represented in Exhibit 3e (i.e. TQ without Lifetime Benefits & with Standard Inflation).

For PA TQ policies Without Lifetime Benefits & With Standard Inflation (represented in Exhibit 3e), the cumulative rate increase approved amount is 163.4%.

16. Please provide a table in an Excel spreadsheet (perhaps similar to Exhibit 3f – with Lifetime Benefits & without Standard Inflation) for this nationwide block of TQ policies which shows the historical and projected nationwide earned premium and incurred claims on a calendar year basis assuming no rate increase is granted. Please restate the nationwide historical and projected earned premium so that the business from inception appears to have all been earned at the original rate level. The original rate level is the rate level that would have existed if no increase was ever granted on any policy nationwide. Answer this question considering only the policies represented in Exhibit 3f (i.e. TQ with Lifetime Benefits & without Standard Inflation).

Please see the attached "Item 16 – Exhibit 3f\_Original Rate Level.xlsx" worksheet, containing the adjusted Nationwide experience exhibit, restated to the Original Rate Level (i.e., with all rate increase assumptions removed).

17. Please provide the percent of active TQ policyholders remaining on a nationwide basis. How many TQ policies were issued nationwide? How many policies remain in force nationwide? Answer this question considering only the policies represented in Exhibit 3f (i.e. TQ with Lifetime Benefits & without Standard Inflation).

Please see the figures shown below:

Total Policies Issued	5,705
Total Policies Inforce	1,823
Percent of Policies Remaining Inforce	32.0%

18. Please provide the cumulative weighted average increase granted on policies in force on this block in PA. Answer this question considering only the policies represented in Exhibit 3f (i.e. TQ with Lifetime Benefits & without Standard Inflation).

For PA TQ policies With Lifetime Benefits & Without Standard Inflation (represented in Exhibit 3f), the cumulative rate increase approved amount is 163.4%.

19. Please provide a listing of the past requested increases and approved increases by state for this block. Also include a column showing the cumulative increases approved in each state to date.

Please see the attached "Item 19 - State Status Listing - OP Gen2 (as of 05.03.2022).xlsx" worksheet, containing the rate increase history by state.

20. Please provide the letter that will be sent to policyholders to inform them of the increase and their available options.

Please note that the policyholder notification letters are included in the associated Form Filing under the Supporting Documentation tab — SERFF Tracking # CNAB-133114868, which is currently pending review. Although, we will provide the same letters within this Rate Filing for convenience.

Please see the two attached notification letters to inform policyholders (depending if the policy is subject to the rate increase):

- With Rate Increase: "Item 20 Notification\_ILTC\_RI\_NW\_2021 11042021.pdf"
- Without Rate Increase: "Item 20 Notification\_ILTC\_NoRI\_NW\_2021 11042021.pdf"
- 21. How many Preferred Advantage policies with standard inflation and lifetime benefits are in force in this block? How many were issued on or after 9-15-2002?

For the block of PA Preferred Advantage policies With Standard Inflation & With Lifetime Benefits that are eligible for rate increases, 312 policies are in force, including 0 policies issued on or after 9/15/2002.

22. How many Preferred Advantage policies with standard inflation but without lifetime benefits are in force in this block? How many were issued on or after 9-15-2002?

For the block of PA Preferred Advantage policies With Standard Inflation & Without Lifetime Benefits that are eligible for rate increases, 473 policies are in force, including 0 policies issued on or after 9/15/2002.

23. How many Preferred Advantage policies without standard inflation but with lifetime benefits are in force in this block? How many were issued on or after 9-15-2002?

For the block of PA Preferred Advantage policies Without Standard Inflation & With Lifetime Benefits that are eligible for rate increases, 55 policies are in force, including 0 policies issued on or after 9/15/2002.

24. How many Preferred Advantage policies without standard inflation and without lifetime benefits are in force in this block? How many were issued on or after 9-15-2002?

For the block of PA Preferred Advantage policies Without Standard Inflation & Without Lifetime Benefits that are eligible for rate increases, 147 policies are in force, including 0 policies issued on or after 9/15/2002.

25. How many TQ policies with standard inflation and lifetime benefits are in force in this block? How many were issued on or after 9-15-2002?

For the block of PA TQ policies With Standard Inflation & With Lifetime Benefits that are eligible for rate increases, 562 policies are in force, including 7 policies issued on or after 9/15/2002.

26. How many TQ policies with standard inflation but without lifetime benefits are in force in this block? How many were issued on or after 9-15-2002?

For the block of PA TQ policies With Standard Inflation & Without Lifetime Benefits that are eligible for rate increases, 1,041 policies are in force, including 28 policies issued on or after 9/15/2002.

27. How many TQ policies without standard inflation but with lifetime benefits are in force in this block? How many were issued on or after 9-15-2002?

For the block of PA TQ policies Without Standard Inflation & With Lifetime Benefits that are eligible for rate increases, 126 policies are in force, including 1 policies issued on or after 9/15/2002.

28. How many TQ policies without standard inflation and without lifetime benefits are in force in this block? How many were issued on or after 9-15-2002?

For the block of PA TQ policies Without Standard Inflation & Without Lifetime Benefits that are eligible for rate increases, 396 policies are in force, including 4 policies issued on or after 9/15/2002.

- 29. The actuarial memo states that these policies were sold nationally from 1994 through 2004. When were they sold in PA?
  - Preferred Advantage policies were sold and issued in PA in the years 1994-2000.
  - TQ policies were sold and issued in PA in the years 1994-2003.
- 30. Please define what "standard inflation means". Were any policies issued with non-standard inflation options in this block?

Two optional automatic increase benefit riders were available on these policy forms; a 5% simple lifetime benefit and a 5% compound lifetime benefit. Please note that no insureds were issued with non-standard inflation option in this block.

31. Continental Casualty has offered the surrender option in the past. The company also offered a conversion option that provided a paid-up benefit of 100% of premium paid plus a cash payment. What is the approximate percent of policyholders that, when offered a cash surrender option, actually choose to exercise it?

The pilot program conducted over the past year and a half has resulted in approximately 2% of policyholders receiving a cash surrender offer choosing to exercise it.

Please let us know if we can provide additional information to assist in the review of this filing.

Sincerely,

Louis Scarim, ASA, MAAA

# **Long-Term Care Insurance Change Offers**

Company: <<COMPANY)>>

Policy Number: «POLICY NUMBER»

Dear «FNAME» «LNAME»:

Thank you for choosing <<COMPANY>> for your long-term care insurance needs. We value your business and are committed to being here when you need us the most.

Some long-term care insurance policies, issued by «COMPANY», are incurring a premium rate increase. The premium for your long-term care insurance policy number «POLICY NUMBER», issued on <<ISSUE DATE>> is **not increasing at this time.** However, we are offering you a few limited-time options to help manage the cost of paying for long-term care insurance.

Please note the options listed in this letter are time sensitive and require action on your part.

## What is my Current Premium?

You currently pay <<CURRENT PREMIUM AMOUNT>> <<FREQUENCY>> for your long-term care insurance policy.

### What are my Options?

We offer several options to help manage the cost of paying for long-term care insurance. These options are offered at <<Company>>'s discretion, and not all of them may be available to you in the future and may not be of equal value to you, so please review this information carefully. We encourage you to consult with your financial or other trusted advisor and a tax advisor before making a selection.

## 1. Convert to a Paid-up Policy

The Increased Contingent Non-Forfeiture Option allows you to stop paying premiums on your policy, and convert to a paid-up policy that has a reduced maximum lifetime benefit. Your reduced maximum lifetime benefits will be equal to 150% of the premiums you have paid to date, capped at your policy's current remaining maximum lifetime benefits.

To select this option, complete the enclosed Option Election Form and return to <<COMPANY>> within 60 days from the date of this notice.

## 2. Lower Coverage to Reduce Premium

You may have the option to lower your premiums by reducing aspects of your coverage. Please contact us at 1-888-397-5824 to discuss benefit reduction options.

## 3. Surrender Your Policy Coverage

This option allows you to surrender your Policy in exchange for a one-time cash payment of <<SURRENDER\_PMT>>, which is based on the amount of money currently held by <<COMPANY>> to cover future expected benefit payments. If you elect this option, your Policy will be terminated, and <<COMPANY>> will no longer have to pay any benefits, even if you have already received long-term care services. You will no longer have an active insurance Policy, and it will not be eligible for reinstatement. If you elect this option, you may receive a 1099-MISC form for the tax year in which the option was executed. Please refer to the Surrender Option Election Form for additional details.

This option is available only at this time and may not be available again in the future. To select this option, complete the enclosed Surrender Option Election Form, **sign it and have it notarized** and return to <<COMPANY>> within 60 days from the date of this notice.

**IMPORTANT** – This option may result in a taxable event for you. Please consult a qualified tax professional or attorney to determine any tax impact to you. <<COMPANY>> does not provide tax advice.

## **Time to Reverse Decision**

If you opt to reduce your benefits or surrender your coverage, your request to reverse any such decision must be in writing, signed by you, and received by us no more than 30 days after the date of our written confirmation of your change.

## **Choose the Option That is Best for You**

As noted above, we are writing to advise you of **voluntary** benefit change options. If you wish to retain your current coverage without changes, you do not need to take action at this time. If you continue to pay your premium at the current amount, the terms of your coverage will not change.

We recommend that you carefully review the options available to you and contact us if you have questions. We encourage you to carefully evaluate your individual situation, the current and projected cost of care in your area, and consider speaking to your family or to a trusted financial or tax adviser before making changes to your coverage. All available options may not be of equal value. In addition, since << COMPANY>> sold policies with varying benefits to insureds of different ages, these options may be of different value to other insureds.

Please be reminded that, under the terms of your Policy, premium rates are not guaranteed. We regularly monitor experience on long-term care insurance policies and may need to implement increases in the future.

For more information regarding the options described in this letter or if you have any questions, please contact our customer service team at 1-888-397-5824 Monday through Friday, 8:00am to 5:00pm Central Time.

Sincerely,

<<OPERATIONS MANAGER NAME AND TITLE>>

## **Long-Term Care Insurance Premium Adjustment Notice**

Company: <<COMPANY>>

Policy Number: «POLICY NUMBER»

Dear «FNAME» «LNAME»:

Thank you for choosing <<COMPANY>> for your long-term care insurance needs. We value your business and are committed to being here when you need us the most.

This letter is to inform you that the premium for your long-term care insurance coverage, issued by «COMPANY» on <<ISSUE DATE>>, is going to increase. This letter explains the amount and timing of your premium increase, and the options available to reduce the impact of the premium increase.

## How much is my Premium Increase and when does my Bill Increase?

You currently pay <<CURRENT PREMIUM AMOUNT>> <<FREQUENCY>>. This premium amount will increase on the first premium due date on or after <<POLICY\_INCR\_EFF\_DATE>>. Your premium will change as follows:

## Why is my Premium Increasing?

The decision to implement a premium increase is a difficult one. <<COMPANY>>, like other long-term care insurers, used certain assumptions when originally setting the premium rate for your policy. These assumptions used the best available information at that time about a variety of factors, including the expected lifespan of Policy holders, the number of insureds going on claim, the length of time insureds would be on claim, and the cost of receiving long-term care services. These assumptions were best estimates of future experience for these policies. Unfortunately, actual experience developed differently than originally expected. More policyholders are utilizing long-term care than expected and the cost of care is higher than expected. Therefore, we have determined that we must increase premiums to reflect the future claim expectations on these policies.

The premium increase has been filed with the state in which your policy was issued, and we are implementing this premium increase in accordance with the laws and regulations of this state. The increase is not due to a change in your health, your age, or your claims history. No individual policyholder has been singled out for a rate increase. Please be reminded that, under the terms of your policy, premium rates are not guaranteed and may be increased again in the future. We will continue to monitor experience on long-term care insurance policies and may need to implement additional increases in the future.

# What are my Options?

<<COMPANY>> understands that a rate increase can be difficult, and offers a variety of options to help manage or avoid the increase. These options may not be of equal value to you, so please review this information carefully. We encourage you to consult with your financial or other trusted advisor and a tax advisor before making a selection.

# 1. Pay the New Premium Amount and Maintain Existing Coverage

If you wish to retain your current coverage without changes, <u>you do not need to take action at this time</u>. Your new increased premium will be reflected on your bill or, if you pay via electronic funds transfer, the withdrawal amount will be adjusted to reflect the premium increase. If you continue to pay your premium at the new amount the terms of your coverage will not change.

## 2. Convert to a Paid-up Policy

The Increased Contingent Non-Forfeiture option allows you to stop paying premiums on your policy, and convert to a paid-up policy that has a reduced maximum lifetime benefit. Your reduced maximum lifetime benefits will be equal to 150% of the premiums you have paid to date, capped at your policy's current remaining maximum lifetime benefits.

To select this option, complete the enclosed Option Election Form and return to <<COMPANY>> by <<RATE\_INC\_EFF\_DATE + 60 DAY>>.

# 3. Lower Coverage to Reduce the Impact of the Premium Increase

<Remove the Automatic Increase Benefit rider. Your policy includes an automatic increase benefit rider, which has increased your policy's daily maximum benefit amount by 5% per year to protect against inflation. You can reduce your premium if you discontinue the automatic increase benefit rider. Be assured that your policy's current benefit levels, which include the automatic increases that have already occurred, will remain intact. Please refer to the Option Election Form for additional details>>.

<Reduce your Maximum Lifetime Benefit. Your policy currently has a maximum lifetime benefit of <<MAXIMUM\_LIFETIME\_BENEFIT>>, which you can reduce to <<MAXIMUM LIFETIME\_BENEFIT – 1 STEP>>. The total Maximum Lifetime Benefit would be based on your daily benefit amount times <<MAXIMUM\_LIFETIME\_BENEFIT – 1 STEP IN DAYS>>. Please refer to the Coverage Change Option Election Form for additional details>>.

Change or Drop other Benefit Features. You may have the option to lower your premiums by reducing aspects of your coverage. Please contact us at 1-888-397-5824 to discuss benefit reduction options.

## 4. << Surrender Your Policy Coverage

This option allows you to surrender your Policy in exchange for a one-time cash payment of <<SURRENDER\_PMT>>, which is based on the amount of money currently held by <<COMPANY>> to cover future expected benefit payments. If you elect this option, your Policy will be terminated, and <<COMPANY>> will no longer have to pay any benefits, even if you have already received long-term care services. You will no longer have an active insurance Policy, and it will not be eligible for reinstatement. If you elect this option, you may receive a 1099-MISC form for the tax year in which the option was executed. Please refer to the Surrender Option Election Form for additional details.

This option is available only at this time and may not be available again in the future. To select this option, **complete** the enclosed Surrender Option Election Form, **sign it and have it notarized** and return to <<COMPANY>> by <<RATE INC EFF DATE + 60 DAY>>.

**IMPORTANT** – This option may result in a taxable event for you. Please consult a qualified tax professional or attorney to determine any tax impact to you. <COMPANY>> does not provide tax advice>>.

## **Time to Reverse Decision**

If you opt to change your coverage, your request to reverse any such decision must be in writing, signed by you, and received by us no more than 30 days after the date of our written confirmation of your coverage change.

## **Choose the Option That is Best for You**

We recommend that you carefully review the options available to you and contact us if you have questions. We encourage you to carefully evaluate your individual situation, the current and projected cost of care in your area, and consider speaking to your family or to a trusted financial or tax adviser before making changes to your coverage. All available options may not be of equal value. In addition, since <<COMPANY>> sold policies with varying benefits to insureds of different ages, these options may be of different value to other insureds.

Please be reminded that, under the terms of your Policy, premium rates are not guaranteed. We regularly monitor experience on long-term care insurance policies and may need to implement increases in the future.

For more information regarding the options described in this letter or if you have any questions, please contact our customer service team at 1-888-397-5824 Monday through Friday, 8:00am to 5:00pm Central Time.

This letter is not a bill. However, we recommend that you keep a copy of this letter with your Policy.

Sincerely,

<<OPERATIONS MANAGER NAME AND TITLE>>

Rate Increase Filing for OP Gen2 (Preferred Advantage, TQ)
Individual Long Term Care Policy Forms:

## Dear Mr. Hibbert:

Thank you for your review of the above referenced filing. This letter is in response to your objection dated July 12, 2022. The objection items are restated below in *italics*, with responses in blue:

 The Department cannot approve your requested increase because our current guidelines do not allow us to approve increases of greater than 30% in any calendar year. Please propose an increase staged over two years such that the cumulative value of the two increases is equal to the original requested increases for each policy and no increase in either year is greater than 30%.

Thank you for your consideration of this filing. We are agreeable to this offer. Please note that we have adjusted the rate increase below to reflect the cost of waiting associated with spreading the increase over multiple years:

				le-Year uest	
Product	Inflation Type	Benefit Period	Yr 1	Yr 2	Total Cumulative Rate Increase
OP Gen2 (PA)	Inflation	Lifetime	30.0%	28.7%	67.3%
OP Gen2 (PA)	Inflation	Non-Lifetime	30.0%	5.5%	37.2%
OP Gen2 (PA)	Non-Inflation	Lifetime	30.0%	4.9%	36.4%
OP Gen2 (TQ)	Inflation	Lifetime	30.0%	28.2%	66.7%
OP Gen2 (TQ)	Inflation	Non-Lifetime	30.0%	5.2%	36.8%
OP Gen2 (TQ)	Non-Inflation	Lifetime	30.0%	5.0%	36.5%

2. Lastly, please provide a seriatim listing of the 2,569 Continental Casualty policies in this block in Excel. Each row within the worksheet must contain the policy's unique identification number, form number, series (i.e. TQ or Preferred Advantage), issue age, issue date, inflation status indicator, benefit period, and Continental Casualty's suggested premium increase in each year of the proposed implementation period.

Please see attached seriatim listing labeled "PA Seriatim Insured – GEN2 Final.xlsx".

We also have provided a summary of the impact of the cost of waiting, along with the nationwide experience exhibits that shows the lifetime loss ratios with the rate increases spread over two years are the same as the lifetime loss ratios with the single rate increase.

Please let us know if we can provide additional information to assist in the review of this filing. Thank you for your time and consideration.

Sincerely,

Louis Scarim, ASA, MAAA
